

# NISM Module

---

## Description:

SEBI (The Securities and Exchange Board of India) is the regulatory body for the securities and commodity market in India under the jurisdiction of the Ministry of Finance, Government of India. SEBI further established the National Institute of Securities Market (NISM) as a public trust to promote securities market education and research. NISM serves the educational needs of a wide range of stakeholders, including investors, issuers, intermediaries, regulatory staff, policymakers, academia, and future securities market professionals. The National Institute of Securities Markets (NISM) has mandated certification exams for professionals working in various divisions of the Indian securities markets.

Anyone who wants to have a flourishing career in the securities market is required to clear the NISM examinations. The institute is known for its flagship program i.e. Post Graduate Programme in Securities Market and also other additional programs which include Post Graduate Programme in Quantitative Finance, Certificate in Investment and Securities Law, Certificate in Treasury Management, Post Graduate Programme in Financial Engineering and Risk Management and Post Graduate Programme in Data Science.

## Objective:

Through its uniquely positioned academic programs, certification programs, training, and seminars, the goal of this module is to educate participants for new-age securities market professionals and equip them with the expertise to fulfill the improved expectations. Participants are provided with NISM test training and preparation, as well as intensive theoretical and practical training so that participants are well-versed in the markets and may sit for exams at the NSE and receive the NISM certification. Online Mock Tests for the NISM Certification Examination as well as all kinds of assistance are offered to participants to ensure that they pass the NISM Exam.

### Highlights:

This module is most suitable for the one who wants to pursue his/her career in Indian and International broking houses, NBFC, Asset Management Company, Banks, Hedge funds, PE funds, KPO's and credit rating Agency on various designations and in different departments. Participants can become Research Analyst, Equity Analyst, Stock Analyst, ABM, Branch Manager and also become fit for various other posts in different verticals depending on their overall qualifications.
